

## Dr Laura Reali

I am a primary care pediatrician, I am in charge of 1000 patients, 0-14 years old, and take care of their social and health needs and prevention, primary care issues, particularly vaccinations.

I am also a medical educator for pediatricians on matters as: primary care pediatrics, environmental related diseases, bioethics, rare diseases and palliative care.

I am a teacher of primary care pediatrics in academic and tutorship courses for pediatric residents of Sacred Heart University of Rome.

I design and carry out clinical research in pediatric primary care.

I have published some scientific papers and few books on pediatric primary care topics, particularly on medical education and environmental related child diseases.

I am the president of the European Confederation of Primary care pediatricians since January 2023.
